

MODEL 2090

22" Capacity Whole Tree Chipper

Popular among tree services and land clearing contractors for its compact size and aggressive feed system. The 2090 features a large 26.25" by 24.5" throat opening easily processing large diameter, brushy material. **Dual feed wheels** in Bandit's unique Slide Box Feed System provide the industry's best pulling and crushing power. Engine options ranging from 275 to 350 horsepower are available to choose from.

SUPERIOR PRODUCTION

Bandit's slide box feed system provides unmatched pulling power and the standard hydraulic lift cylinder along with side mounted down pressure springs generate over 6,000 pounds of combined down pressure further enhancing the 2090's ability to chip material with less trimming and repositioning.

HYDRAULIC WINCH

The 2090 can be equipped with a hydraulic winch mounted on the infeed hopper to further assist with pulling material up and into the chipper. This option makes it significantly easier to get material in difficult areas that cannot be accessed by mini skid steers or other loaders.

MAXIMIZE YOUR UPTIME

Bandit chippers are constructed to withstand rigorous chipping every day, all day. We use only the highest quality components and materials during construction to help ensure that your machine will be ready to go to work when you are.

CONFIDENCE TO KEEP RUNNING

All Bandit Whole Tree Chippers come standard with an industry leading 5-year "GUTS" warranty covering the Bandit fabricated components of the drum and slide box feed system. These components are so durable and rugged Bandit is proud to offer this extended warranty as a standard feature

TOP NOTCH SUPPORT

Whether you are supported by the Bandit factory or a dedicated authorized Bandit dealer, you can be confident that our team of trained professionals have the knowledge and dedication to serve all of your parts, sales and service needs!

Optional: Forestry style stationary discharge with hydraulic up/down and side to side end deflector.

Feed System: Slide Box with 32" wide x 27" diameter (81.3 cm x 68.6 cm) top feed wheel and 32" wide x 10.625" diameter (81.3 cm x 27cm) bottom feed wheels

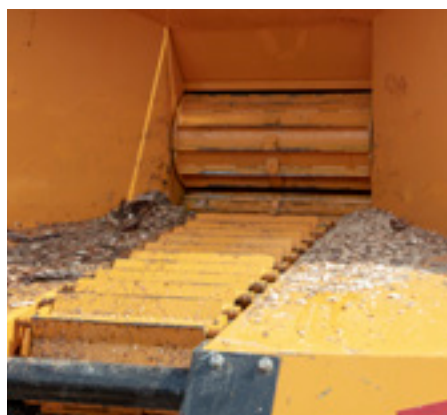

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

5 ½' INFEED CONVEYOR

To further assist with loading smaller material or piles of brush a 5 ½' infeed conveyor is optional.

WATCH IT RUN!

RADIO REMOTE OPTION

A wireless radio remote with tether back-up is standard on the 2090. All feed system and discharge functions are controlled from this user-friendly remote.

LOADER OPTION

For those looking to have the assistance of a loader unit, the 2090 can be ordered with an optional Kesla loader. This loader has massive reach and pulling power capabilities along with 180 degrees of operating swing. The loader can be controlled with a radio remote control or swing out operator's console.

Bandit Offers a Complete Line of Tree Care Equipment:
Hand-Fed Chippers • Stump Grinders • Whole Tree Chippers
Horizontal Grinders • Slow-Speed Shredders
